Abstract—Write your research paper abstract here. The abstract should briefly describe the research problem, proposed methodology, experimental setup, major results, and conclusion.

Index Terms—Artificial Intelligence, Machine Learning, Data Science, Deep Learning, Research Methodology

I. INTRODUCTION

Write your introduction here.

II. LITERATURE REVIEW

Write your literature review here.

III. METHODOLOGY

Describe your proposed methodology here.

A. Proposed System Flowchart

The overall workflow of the proposed system is shown in Fig. 1.

IV. SYSTEM ARCHITECTURE

Fig. 2 illustrates the architecture of the proposed system.

V. MATHEMATICAL MODEL

The proposed method can be represented using the following equation:

$$y = f(x) \quad (1)$$

The mean value can be calculated as:

$$\bar{x} = \frac{1}{n} \sum_{i=1}^n x_i \quad (2)$$

A matrix can be represented as:

$$A = \begin{bmatrix} a_{11} & a_{12} & a_{13} \\ a_{21} & a_{22} & a_{23} \\ a_{31} & a_{32} & a_{33} \end{bmatrix} \quad (3)$$

Multiple equations can be aligned as follows:

$$y = mx + c \quad (4)$$

$$z = ax^2 + bx + c \quad (5)$$
